The map illustrates the layout of the Wye River Beachfront Campground. It is bordered by Great Ocean Road to the north, Wallace Avenue to the east, and the Wye River to the south. A road labeled 'The Boulevard' runs through the center. Roads leading away are Kennett River 6KM to the west and Lorne 18KM to the east. The campground is divided into several sections of sites, numbered 1 through 61, plus a small section of 4 sites at the bottom right. Sites are color-coded: blue for Seasonal Sites and orange for Powered Sites. Key facilities include the Reception area, Amenities Block, Camp Kitchen, BBQs, Laundry, and Clothesline. There are also fire safety equipment (extinguishers, hose reels), first aid, and an automated external defibrillator. A beach access point and viewing deck are located on the southern shore. A walking track/walkway runs along the southern edge. Two car parking areas are marked. A speed limit sign of 5 is shown near the top. A note states 'Map is not to scale'.
